## MEDICINAL.

### What The Earth Produces.

The earth has nourished us through unknown ages of human existence. Is it not true that the earth supplies us with everything that we really require for existence? Have you ever thought that it is probable that the earth supplies us with the means to keep our bodily vigor, our health, if we instinctively know it? The animals know by instinct what is good for them and will search until they find in some plant what they need for correcting indigestion or constipation, etc. Is it, therefore, not possible that there are roots and herbs supplied by nature which will cure the diseases that afflict human kind? That is why Dr. Pierce, of Buffalo, N. Y., has such faith in his "Medical Discovery." Years ago, when he was in general and active practice, he found that a combination of certain herbs and roots made into an alternative extract, with the use of alcohol, would always put the stomach into a healthy condition, nourish the tissues, feed the blood and nerves and put healthy tone into the whole system.

Dr. Pierce's Golden Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and nutrition and enabling the perfect digestion and assimilation of food from which flesh and strength are made.

L. Royalty, Esq., Justice of the Peace, Lexington, Ky., for 20 years, writes: "I am satisfied that Dr. Pierce's Golden Medical Discovery will give permanent relief, and cure any one who may be suffering from stomach and liver trouble, which as a rule are the result of bowels difficulties. My experience with the above named medicine was most satisfactory. It soon had my system well regulated and toned up, and I have felt in splendid health and spirits ever since."

### Strike in Austria.

The strike of railway men, which began Tuesday on the Hungarian Western Railway, has become general and on all the Hungarian State railways yesterday traffic was at complete standstill. The Southern Railway, which is not owned by the government, alone managed to start trains out of Budapest yesterday. Six trains due Tuesday night have not yet arrived. The strike committee by telegraph ordered all traffic to stop at midnight and all trains to be abandoned by their crews at the stations where each happened to be at that hour. The committee proposes to dispatch trains to places along the lines for the purpose of bringing the strikers into Budapest, but no passengers will be carried on these trains. The men declare they are willing to return to work if their demands for increased pay, which, they claim, was promised them by Premier Tisza, are granted and the strike leaders reinstated. The railroad stations are guarded by troops. A number of strikers' delegates arriving at Budapest to a meeting have been arrested, including five hundred from Flauve. A band of 750 railroad men seized a train at Bia-Torbagy, brought it to Budapest and reported themselves to the police, who have instituted criminal proceedings against them.

The men in the workshops of the Western Railroad have joined the strikers. The latter have disconnected the telegraph instruments at various points, severing communication. The situation was discussed by the ministers and deputies prior to the sitting of the Diet. Premier Tisza declared the government could not negotiate with the strikers, and had ordered troops to be summoned to assist in the re-establishment of order and had instructed the railroad and telegraph regiment to operate the railroads. An example, he added, must be made of the ringleaders of the strike.

The strike has created such wholesale inconvenience that it is considered doubtful if the government will be able to force the men into submission. Moreover, the opposition party in Parliament is espousing the cause of the strikers. It was announced last night that negotiations have already been opened between the railway administration and the strikers, with a view to a peace settlement of the trouble.

Hundreds of passengers suffered the greatest inconvenience, being stranded at small provincial stations, and all the freight depots are loaded with perishable produce, such as poultry, eggs and dairy products. Mails can only be dispatched by the Danube steamers.

### Good Roads.

Without presuming to be accurate, I claim that the cities and towns in the United States pay about 90 per cent. of the money that goes into Uncle Sam's treasury. Our State and corporation collect on real estate and personal property. Uncle Sam collects on our food, clothing, tobacco in all its form, liquors, medicines and all articles named in the tariff list; besides stamps, licenses, &c., and the "excise" means a list that would fill a book as large as a family Bible. One square or block in Alexandria bounded by King, Royal, Prince and Pitt streets, with all that is on it, is worth as much or more than ten farms in Fairfax county, and if Alexandria wants good roads or streets the property owners must pay the bills. And our rural neighbor can drive over them at his pleasure. Then why should the cities and towns be taxed to make good roads in the farming districts? If the proposition now urged before Congress to appropriate millions to build good roads throughout the country should become a law, Fairfax would hardly get enough to build a good road from Alexandria to Falls Church. Then the next Congress would have to duplicate the appropriation and keep at it for a century. It is just another scheme to take the surplus out of the treasury and prevent a reduction in tariff rates, and to make republicans of the farmers. Good roads are desirable, and our State authorities should provide for them. It was never intended that the national Congress or administration should enter into such enterprises. T. V. R.

### A Great Satisfaction.

There was a big sensation in Leesville, Ind., when W. H. Brown, of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insupportable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50c and \$1.00. Guaranteed by E. S. Leadbeater & Sons, druggists. Trial bottle free.

### A Cure for Headache.

Any man, woman or child suffering from headache, biliousness or a dull, drowsy feeling should take one or two of DeWitt's Little Early Risers right away. These famous little pills are famous because they are a tonic as well as a pill. While they cleanse the system they strengthen and rebuild it by their tonic effect upon the liver and bowels. Sold by all druggists.

### Unseasonable Weather.

A severe snow storm raged at St. Louis yesterday which, being driven by a sharp wind, at times assumed the proportions of a blizzard. Street traffic was considerably impeded and railroad trains were late in arriving. About six inches of snow fell. Reports received indicate that from 5 to 7 inches of snow fell within a radius of 150 miles of St. Louis. The storm is moving to the north and east.

Reports of low temperatures Tuesday night have been received from various parts of Virginia, and the indications all point to great damage to the fruit crop and early vegetables. Ice half an inch thick was reported around Richmond. In the city little damage was done to vegetation. A gentleman who examined five orchards outside the city said all the fruit was killed except in one, where the orchard was surrounded on all sides by woods. The damage was severe in the Valley of Virginia, in the southwest and on the South Side. Owing to high winds in the northern and Piedmont sections there was frost and no ice.

Dispatches from points in North Carolina, Maryland, New York, Ohio, Indiana, Connecticut and Vermont report snow and ice during the past forty-eight hours.

### Nothing Like Experience.

"One truth learned by actual experience does more good than ten experiences one hears about." Tell a man that Chamberlain's Colic, Cholera and Diarrhoea Remedy will cure cholera morbus, and he will most likely forget it before the end of the day. Let him have a severe attack of that disease, feel that he is about to die, use this remedy, and learn from his own experience how quickly it gives relief, and he will remember it all his life. For sale by Richard Gibson.
